## Music that will make you travel back in time

Once upon a time, there was a sweet-voiced lady who cast a spell on this Latin percussionist whom she met during a concert of .. Latin music.

Once upon a time, there were those years of stage encounters in the course of diverse musical projects. One chap carrying his double bass, another one his Spanish guitar, a Cuban lady and her tumbao's on the piano, and somewhere in the south of the country, the man who shone his copper with delicacy.

And then came that day when the threads began to tangle: the singer, the percussionist, the pianist and the contrabassist, the guitarist and the copper man. What brought them together was the idea of a peculiar musical recipe : some “French glamour”-flavoured nostalgia, a handful of latin rhythms with some jazzy and cosmopolitan touch that easily adapts to Spanish, French or English. The repertoire stems from a broad musical landscape, revisiting classics from pop, French chanson, latin culture and jazz standards, but all still to the very special taste of this recipe that we owe to the mythical ... Maria Dolores.

And one day ...there it was ... the Maria Dolores Band!
